ASSEMBLING INSTRUCTIONS FOR HOWDAH SHOULDER STOCK

WARNING: BEFORE PROCEEDING ALWAYS MAKE SURE THE FIREARM IS UNLOADED AND POINTED IN A SAFE DIRECTION.

Place the butt cap into the metal shoulder stock mount (# 2) paying attention that the stock fits properly against the leather covered mount.

Turn the hinge (# 5) to close it on the pistol grip stock and insert the screw (# 8) into the proper hinge seat.

By tightening the screw (# 8) you will tighten progressively the hinge around the pistol grip, fixing the shoulder stock.
